

Needle Exchange / Safer Injecting Service Cornwall March 2020

During the COVID-19 outbreak, the intention is to continue to ensure that needle exchange equipment is readily available to clients throughout the area and that the service continues with as little disruption as possible.

Usual service for clients phoning the service will continue. Where a client calls to request equipment by 11am on a working day, we aim to provide that equipment by the close of the next working day. This occurs either by meeting at an agreed location or by We Are With You staff delivering to the client's home address.

Phone: 0333 200 0325 or offices as listed below.

Drop in service is available at each of the main offices Monday to Friday 9am to 5pm
